

## CAMBRIDGE MEN AT YALE

THEIR TIME OCCUPIED IN PLEAS-  
URE TRIPS AND EXCURSIONS.They have as yet had little opportunity  
for practice on account of the recent  
hot weather and unaccustomed climate.

The Cambridge Athletic team, which will face the Yale athletes on Manhattan Field next month, have now been for more than a week in their quarters here, but owing to the hot weather and the fact that they are not yet accustomed to the climate, they have done little in the way of effective practice. But while their work has been light, they have not been idle, for their time has been fully occupied with pleasure trips and excursions.

The favorable impression which they created on their arrival they have maintained. They are a jolly lot of fellows and they have come here, not only with a view of winning from their American rivals, but also for a good time. Among their entertainers have been Walter Camp, who took them for a trip on the Yale launch, and A. De Witt Cochrane, who last Wednesday invited them on a sail down the harbor in his sloop Awa. On Thursday they attended the yacht race and saw the Defender sail over the course alone, and there have been numerous smaller excursions and occasional theater parties. The electric roads, which captivated the Englishmen on their arrival, have continued an unfailing source of recreation, and the new comers are enthusiastic in praising them. They compare them with their "trams" on the other side, which, with the exception of a few cable lines, are drawn by horses and seem slow in comparison with the trolley cars.

During the hot weather, whenever opportunity offered, they have enjoyed the bathing in the harbor, and declare the waters of the sound much warmer than those of the English coast. At the request of their Yale host they have dressed in their student attire and make themselves as comfortable as possible. Their short coats, white duck hats and loose fitting trousers have made them easily recognizable on the street.

The New York Evening Sun says of them as follows:

"Their easy going methods of training soon attracted the attention of those accustomed to the stricter system in vogue at Yale, but the reports of the laxity of the English system have been somewhat exaggerated. Smoking is confined to the contestants of the field events, and to such as do not have to depend much on their wind in their specialties. The Englishmen, too, being more set in their habits of living, require less change when preparing for contest than our athletes. Then, again, it was necessary, following their ocean voyage, that they should maintain, as far as possible, their ordinary method of living, in order that the change might affect them as little as possible. During the last weeks before the meeting the Yale matters of diet and sleep will receive a little closer attention."

At the Yale field the practice of the athletes has been postponed each day until late in the afternoon, as the warmth of our sun in the middle of the day has been too much for the Englishmen, accustomed to the feeble rays which struggle through the London smoke and English fog. The practice has thus far been entirely open and the crowd of spectators has been large throughout the week. The next appearance of the Cambridge running costumes has been frequently remarked. The light blue of Cambridge is lighter than that of Columbia, and running breeches, jerseys and sweaters are alike trimmed with the university colors. The sweaters, open at the neck in front and with the letters C. U. A. embroidered on the pockets, make an especially neat appearance.

The Yale track is favorably commented upon by most of the team. It is as hard as the English tracks, but the surface is somewhat looser, owing partly to the prevailing dry weather. Captain Horan said recently that they regarded the Cambridge track as fast as any in England, but so far as he could judge, the Yale track was faster.

Criticism of the members of the team is necessarily confined as yet to their style rather than their form, as they have not yet shown what they are capable of when in the best condition. The visitors are evidently not superstitious, as their team numbers thirteen. Four of these compete only in field events.

Captain F. S. Horan is a splendid athlete, fast for any distance from a quarter to three miles. He is a great worker, and seems to thrive on hard practice. He is rather slender for a long-distance runner, and his legs are of the spindle variety. He runs easily, and with a long, graceful stride, which stamps him as above the ordinary class of runners. For three years he has won the three-mile race against Oxford, but in the games with Yale it is expected that he will reserve himself for the half mile event, as there is no three-mile contest, and Lutyens is capable of taking care of the mile.

The English sprinters, Williams and Wilding, are both rather heavy men, but strong finishers. Williams depends for his speed on his long stride, which, when he is running at top speed, approaches nine feet. Both of these men appear older than the average of the team.

William Fitzherbert, the much-praised quarter-mile, who defeated Bredin in England, is one of the youngest men on the team and does not give one the impression of being a great runner. He is tall and more heavily built than Burke, who will meet him in the international championships, or Richards, who will face him in the games with Yale. He impresses one as working hard when he runs and does much of the work with his hips. Charles H. Lewin, his partner in the 300 and 400-yard dashes, is also a fast man, but in past races has failed to equal his work in practice. He is well built for a runner, reminding one of Wager Swaine, who made such a record as a sprinter during his one year at Yale.

William E. Lutyens is pretty certain to win from Morgan in the mile. He has won twenty-five prizes at Cambridge, and fourteen times has covered the distance inside of 4 minutes 35 seconds. His weight is the same as Cap-

tain Horan's, and he impresses one as being a student rather than an athlete. In Wednesday's practice he ran a half in 2 minutes 3 seconds, finishing rather easily. At present he is troubled somewhat with a lame foot, which he wrenched in putting the shot. His companion runner, Davenport, has represented Cambridge against Oxford, but is much inferior to Lutyens. He has done little running since arriving in New Haven, but he is probably fast enough to push Morgan hard.

Pilkington and Fletcher will compete against the Yale hurdlers and the former will be a dangerous antagonist. He is rather short for the high hurdles, but has great speed and strength. Fletcher is taller and runs the sticks more easily, but does not succeed in making as fast time as his colleague. The men are trying the American hurdles for the first time and find them quite different from their own. Pilkington has declared himself as much pleased with the American method, and thinks that he will be able to make faster time than running on the turf with fixed hurdles, as he has done in England. He says there is little difference between turf running and track running in America, however, as the American turf bakes in the sun until it is about as hard as the track.

In the broad jump, Wallingford Mendelson, the New Zealander, is likely to be the only rival of Captain Sheldon. He defeated Frye, the English champion, at the last Cambridge-Oxford meeting with a jump of 22 feet 5 1/2 inches, but since his arrival in this country he has been unable to reach anything like his best form and will have to improve a great deal to defeat Sheldon.

Edward I. Watson will be the reliance of the Englishmen in putting the shot, but will hardly be a dangerous opponent of either Hickok or Brown, as his best put is nearly two feet behind their records. He has been accustomed to putting the shot from the English ten-foot square, but is rapidly becoming accustomed to the American method, which allows only a seven-foot circle. His method is entirely different from that used in this country, as he takes his position on the extreme back edge of the circle and balances himself over the edge on his right foot, with his left foot and both arms projecting outside the circle.

Jennings and Johnston are the Cambridge representatives in the high jump and hammer throwing. Johnston has made the best record in England, but he is decidedly off in his form as yet. He has practised with the hammer on one or two occasions only, and then from the 30-foot circle according to the English method. The Englishmen make two turns and a half before releasing the hammer, instead of one and a half turns, as is customary with our hammer throwers, but they seem to gain little advantage by the extra turn. Jennings has confined his attention mostly to high jumping. He has a good style, and clears the bar rather easily up to 5 feet 7 inches, which thus far has seemed to satisfy him, as he has not raised the bar much above this figure.

The men who will compete with the London Athletic club against their New York rivals next week have gone to New York and will train there until the international meeting is over. Lutyens left yesterday and the others followed to-day. Captain Horan, Fitzherbert, Mendelson and Watson will be on the London team, and Johnston may also compete. This leaves only the lesser lights to train in New Haven during the interval, and not much in the way of results can be accomplished until the others return. They will bring their trainer, Jack White, back with them, and the Yale team will return to New Haven at the same time. Only two weeks will remain for preparation for the inter-university meeting on October 5 and no time will be wasted by either team. Some arrangement will be made allowing the Cambridge and Yale teams separate hours for practice. The Englishmen will probably work in the morning, allowing the home athletes the afternoon when recitations are over."

## FINANCIAL NOTES.

The business of our local banks as indicated by their clearings and balances shows a constant increase from last year, and is now fully equal to the prosperous business year of 1893. By days for the past week the figures are given below:

	1895.	Clearings	1894.
Sept. 9, 1895	\$235,518.03	\$43,988.16	\$187,177.51
Sept. 10, 1895	284,148.28	73,097.77	294,732.20
Sept. 11, 1895	300,270.16	58,670.48	257,324.85
Sept. 12, 1895	301,130.37	44,598.86	212,712.23
Sept. 13, 1895	237,800.57	60,594.87	235,763.00
Sept. 14, 1895	201,788.81	115,331.13	170,672.70

\$1,660,651.22	\$398,321.26	\$1,262,590.99
Increase week 1895, \$302,060.22.		
Balance week 1894, \$304,730.18.		
Increase week 1895, \$393,531.08.		
Clearings week 1895, \$1,241,554.95.		
Clearings week 1894, \$1,469,223.07.		

Rights for new stock of the New York, New Haven and Hartford Railroad company have ranged from 19 1/2 to 19 3/4, closing at 19 1/2. The debenture rights have been steady at 8 1/2, with a steady demand for the debentures than for the rights. The stock was quoted and sold all last week in Boston as divided on, but in New York and Connecticut, as ex-dividend, as the transfer books were closed, though the formal announcement of the dividend of 2 per cent., payable September 30, was not made until Saturday afternoon.

The time for presenting bonds, notes and choses in action at the office of the treasurer of the state in Hartford and getting this exempt from local taxation by the payment of one-fifth of one per cent. per annum expires September 30. From what we are able to learn the amount of securities presented this year is much less than the average of the past five years. Considerable of the decline is due to the collection or foreclosure of western loans. When a western loan has been in default two or three years the owner is very unlikely to consider the principal as "money at interest," and ordinarily omits to pay the tax on so uncertain investment.

To-day the following dividends are due:

Camden and Atlantic railroad, 2 1/2 per cent. on the preferred.  
Chicago, Burlington and Quincy, 1 per cent. quarterly.  
Consolidated Gas Light, 2 per cent. quarterly.  
Delaware and Hudson Canal compe-

ny, 1 1/4 per cent. quarterly.  
National Lead company, 1 1/4 per cent. on the preferred.  
National Lined Oil company, 1 per cent.

West Jersey railroad, 3 1/2 per cent. in scrip.  
To-day the transfer books of the C. C. & St. Louis railroad close for a quarterly dividend of 1 1/4 per cent. on the preferred stock, payable October 1; also the transfer books of the Chicago and Northwest railway for the usual quarterly dividend of 1 1/4 per cent. on the preferred stock.

The transfer books of the New Haven Gas Light company closed on Saturday night for the usual quarterly dividend of 2 1/2 per cent., payable October 1.

The Chicago Junction railway and Union Stock Yards company closed on Saturday for a quarterly dividend of 1 1/4 per cent. on the preferred stock.

The Swift & Co. has declared a quarterly dividend of 1 1/4 per cent., payable October 1. The transfer books close to-day.

On Friday next the transfer books of the Boston and New York Air Line railroad close for the usual semi-annual dividend of 2 per cent., guaranteed under the lease by the New York, New Haven and Hartford Railroad company, payable October 1; also the transfer books of the Northampton company for a semi-annual dividend of 1 1/4 per cent., payable October 1. The New York, New Haven and Hartford Railroad company own about 24,000 shares of the capital stock of 24,000 shares; the small amount outstanding will no doubt be soon redeemed under the new law passed at the last session of the legislature.

On Saturday next the transfer books of the P. Lorillard company close for a quarterly dividend of 2 per cent. Subscriptions to the new stock of the New York, New Haven and Hartford railroad are coming in rapidly. The division and transfer of both stock and debenture rights have made so much clerical work that the company has been obliged to hire extra clerks.

## FAIR HAVEN.

Abner N. McIntyre of 201 English street, accompanied by his grandfather, Nelson McIntyre of Charlton, Mass., is visiting in New York.

General W. H. Pierpont, at the reunion of his old regiment, the Seventh, at Hartford, declined reappointment as secretary of the association.

The members of Bigelow council, O. U. A. M., attended service at the Calvary Baptist church last evening.

John Jackson, a retired farmer, died at his home in East Haven on Saturday at the age of seventy years. He had been a selectman and collector of taxes. He leaves a daughter, Mrs. Jerome Forbes.

Mrs. C. H. Seeley and Miss Hattie Seeley are visiting in Massachusetts. Commander Walter E. Jacobs of Gideon Wells association, Naval Veterans, returned yesterday from Louisville, having gone out as a delegate to the National Association of Naval Veterans.

At a meeting of East Rock lodge, A. O. U. W., to be held next Thursday evening, E. S. Wade will give an account of his recent trip to Nova Scotia.

The schools in the East Haven center district are overcrowded. There has been great delay in the plans for the proposed new school building that is so greatly needed.

The voting places at the school election in the Fair Haven wards to-day are:

Eleventh ward, at the store No. 170 Chapel street.

Twelfth ward, at the store No. 222 Poplar street.

Fourteenth ward, at the engine house, East Grand avenue.

Fifteenth ward, at the house of J. N. Rowe, No. 214 Forbes avenue, near Four Corners.

Captain Caleb L. Ludington, who has been stopping at one of the Shell Beach cottages, has enjoyed some great black-fishing. He caught one fish which weighed seven and one-half pounds, several four-pounders and scores of smaller ones of are.

The evening service at the Second Congregational church will be resumed Sunday, September 23, under the direction of the Congregational Brotherhood.

At the Grand avenue Congregational church yesterday morning the pastor, Rev. J. Lee Mitchell, preached on "Cross and Crown;" and at 4 p. m. the sacrament of the Lord's supper was observed.

## INTERESTING STATISTICS.

The usual letter of the Grand avenue Baptist church to be presented to the annual meeting of the New Haven Baptist association, to be held at Shelton October 2 and 3, and prepared by Clerk C. A. Knowles, contains the following statistics: Admitted to the church by baptism during the past year, 12; by letter, 11; dismissed by letter, 7; excommunicated, 3; deaths, 4; present membership, 320. The members who have died are Mrs. Eliza Beckwith, Mrs. Louis Wilson, Miss Jesse Kay and William Greene. The church expenses amounted to \$2,316.11. The benevolences were: For state missions \$34.85, home missions \$36.36, foreign missions \$48.50, woman's home missions \$21, woman's foreign missions \$27.24, Youth's mission fund \$18.28, Bible and publication work \$9.45, ministerial education \$20.65, church poor \$41.64, other objects \$163.49; total benevolences, \$433.50. Louis J. Bamberg was made a licentiate preacher during the year.

## STRICKEN WITH APOPLEXY.

Miss Sarah Stoddard, taken ill while calling—Condition Very Serious.  
Miss Sarah Stoddard, sister of E. G. Stoddard, of the New Haven County National bank, was stricken by a dangerous attack of apoplexy Saturday. Miss Stoddard was calling on Prospect street. She had just left the home of the late Governor Lusk B. Morris, and was walking down the street when she fell. Luckily she had a lady friend with her, who saw immediately that her companion was ill. Miss Stoddard was carried quickly to a neighboring house. Here a carriage was summoned, and she was removed to her home in the Osmond apartment house on Chapel street.

Dr. Whittemore was called in and pronounced her case apoplexy. Her condition is serious. Dr. Whittemore stated that the attack was so sudden and violent that her recovery is very doubtful. Miss Stoddard was unconscious for a great part of the time after she was stricken. This is the first attack of the kind from which Miss Stoddard has suffered.

At 12 o'clock last evening she was sinking, and the physician did not think she could recover.

Mr. Malone's Dancing School.  
Mr. C. Francis Malone announces the opening of his dancing school on Tuesday, Wednesday and Thursday of this week at Harmonie hall. These days will be devoted to registering of names. Mr. Malone is well known in this city, where he has been very successfully engaged in his profession for a number of seasons, and those desiring instruction in dancing should apply.

The Iron King Shoes  
FOR BOYS have solid OAK SOLES, and STEEL PLUGS in the heels, and are the best that can be made; 11 to 2, \$1.75; 2 1/2 to 4, \$2.00.

Our Boston School Shoes  
FOR THE GIRLS are too well known to need any comments. Prices \$1.00, \$1.25 and \$1.50.  
Closing out Boys' and Girls' TAN SHOES, LESS THAN COST.

A. B. GREENWOOD,  
773 CHAPEL STREET.

This statement can't be made too strong or too emphatic.  
It is a simple, certain, speedy cure for

Rheumatism, Eczema, Convulsions, Chilblains, Sore Muscles, Burns, Toothache, Cuts, Faceache, Sprains, Neuralgia, Boils, Sore Throat, Ulcers.

Two sizes, 25 and 50 cents. At druggists, or by mail.

THE BRANDRETH CO., 714 CANAL ST., N. Y.

OUR KEYS TO YOUR POCKETBOOK ARE OUR

Boys' Canvas Bals for 69c,

## FEW KNOW ABOUT THE SHAKERS.

An Interesting, God-fearing People Who Have Given the World Many Important Discoveries.

We may not accept their peculiar religious beliefs nor can we enter into the spirit of their sacrifices. It is not necessary to believe as they do, but we can and do respect their sincerity of purpose and the honor and uprightness which marks all their business dealings.

The Shakers have always been successful inventors, and some of the greatest conveniences of the present day found origin in their settlements.

In one particular they excel all other men or classes of men, and that is in cultivation of medicinal herbs and plants and their preparation for use. They have made it a study for more than one hundred years. It is one of their peculiar industries. Their lives have been devoted to it.

Their latest and greatest achievement is the Shaker Digestive Cordial. It is not offered as a cure for all diseases. It does not pretend to be, but one disease it will cure, and that is indigestion.

Sufferers who resort to its use have not long to wait to see the result. The effect is almost immediate. The first dose usually gives relief and it continued a permanent cure will follow.

It not only contains already digested food, but it digests food as well, thus saving the general system. An interesting pamphlet is now being issued by the Shakers and can be had for the asking at almost any drug store.

Try a 25-cent bottle of Digestive Cordial and see what it will do for you.

Following are the quotations for United States bonds at the call to-day:

	Oct. 1, 1895.	Oct. 1, 1894.
